[Tutorial]How to update Spyder

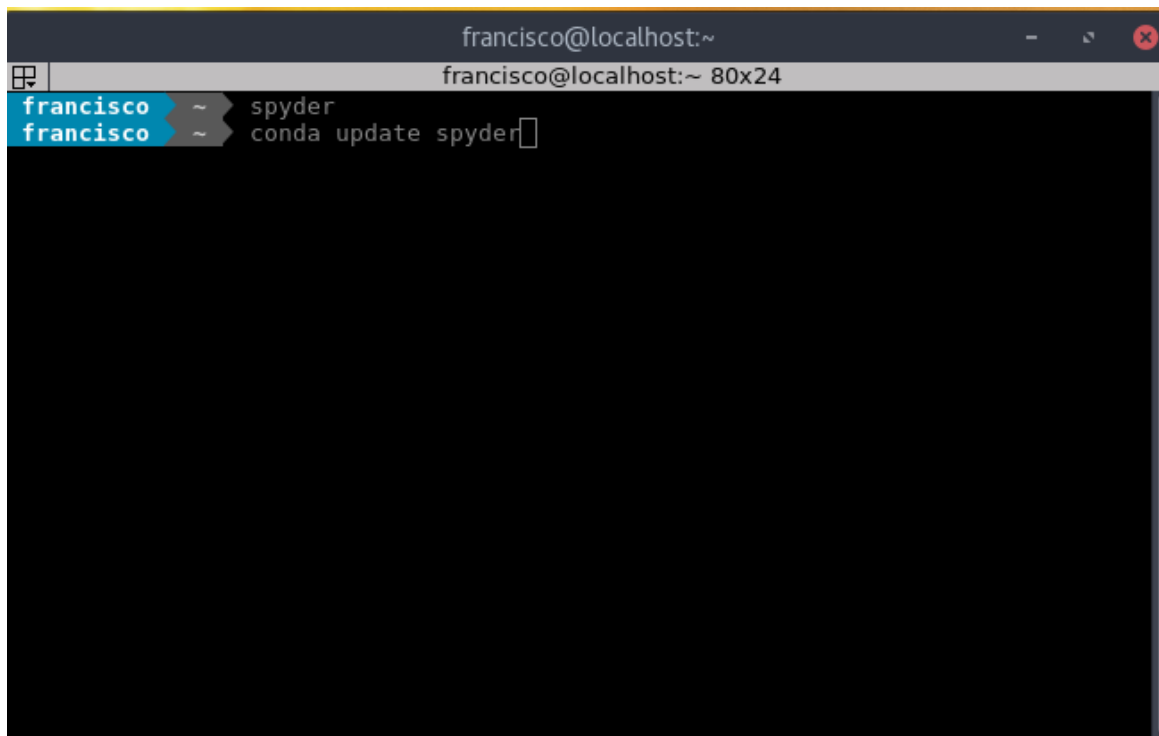

discussion posted 5 months ago by [FranciscoVergara](#) (Community TA)

Many of you might have gotten this little pop up once you open Spyder IDE:

In order to update the Spyder IDE first open your terminal and type

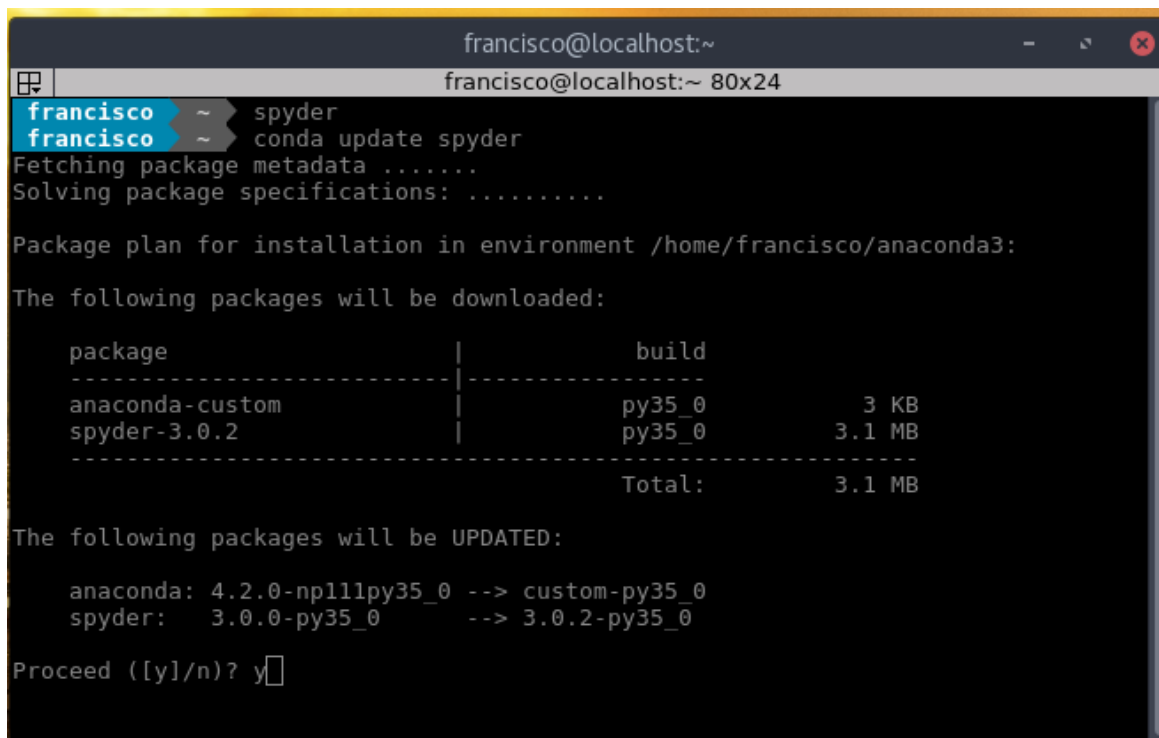

```
conda update spyder
```

```
francisco@localhost:~  
francisco@localhost:~ 80x24  
francisco ~$ spyder  
francisco ~$ conda update spyder
```

You will see a bunch of text pop up on the screen:

Just type **y** at the end

```
francisco@localhost:~  
francisco@localhost:~ 80x24  
francisco ~$ spyder  
francisco ~$ conda update spyder  
Fetching package metadata .....  
Solving package specifications: .....  
  
Package plan for installation in environment /home/francisco/anaconda3:  
  
The following packages will be downloaded:  
  
package | build  
-----|-----  
anaconda-custom | py35_0 3 KB  
spyder-3.0.2 | py35_0 3.1 MB  
-----|-----  
Total: 3.1 MB  
  
The following packages will be UPDATED:  
  
anaconda: 4.2.0-np111py35_0 --> custom-py35_0  
spyder: 3.0.0-py35_0 --> 3.0.2-py35_0  
  
Proceed ([y]/n)? y
```

And this text should appear once it's done:

```

francisco@localhost:~
package                                build
-----
anaconda-custom                        py35_0          3 KB
spyder-3.0.2                          py35_0          3.1 MB
-----
Total:                                3.1 MB

The following packages will be UPDATED:

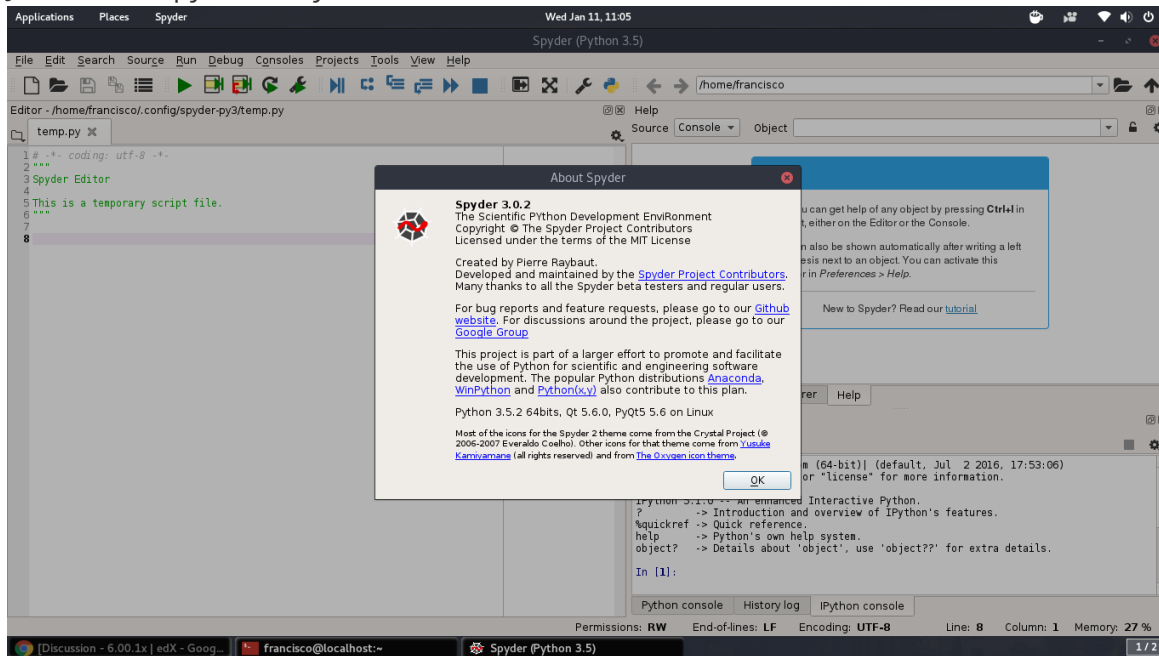

anaconda: 4.2.0-np111py35_0 --> custom-py35_0
spyder:   3.0.0-py35_0       --> 3.0.2-py35_0

Proceed ([y]/n)? y

Fetching packages ...
anaconda-custo 100% |#####| Time: 0:00:00 961.94 kB/s
spyder-3.0.2-p 100% |#####| Time: 0:00:01 2.36 MB/s
Extracting packages ...

Unlinking packages ...
[ COMPLETE ] |#####| 100%
Linking packages ...
[ COMPLETE ] |#####| 100%
francisco ~

```

Just launch Spyder and you should be on the latest ver.

And you're set!
